

New York Mortgage Trust Reports Fourth Quarter 2004 Results

Mar 15, 2005

NEW YORK, March 15 /PRNewswire-FirstCall/ -- New York Mortgage Trust, Inc. (NYSE: NTR), a self-advised residential mortgage finance company, today reported results for the fourth quarter and year ended December 31, 2004.

Highlights included:

- Post-IPO REIT net income of \$7.3 million or \$0.41 per share for the year ended December 31, 2004;
- Post-IPO total dividends paid during 2004 of \$0.40 per share (\$0.16 for the third quarter of 2004 and \$0.24 for the fourth quarter of 2004);
- Consolidated net income of \$4.9 million or \$0.28 per share for the year ended December 31, 2004;
- Consolidated net income of \$2.0 million, or \$0.11 per share, for the fourth quarter of 2004;
- Total assets of approximately \$1.6 billion as of December 31, 2004;
- Record mortgage origination volume of approximately \$632.7 million for the fourth quarter of 2004, 57.9% of which were for purchase mortgages and 55.3% of which were adjustable rate mortgages;
- During the fourth quarter, NTR acquired Guaranty Residential Mortgage Lending's (GRL) Northeast and Mid-Atlantic retail mortgage origination platform which added 15 full service and 26 satellite retail mortgage banking branches and approximately 275 employees.

Fourth Quarter Financial Highlights

For the quarter ended December 31, 2004, the Company reported total revenues of \$22.4 million, net income of \$2.0 million and net income per basic and diluted share of \$0.11. Total shares of common stock outstanding as of December 31, 2004 were 17,797,375. The Company's taxable REIT subsidiary had a net loss for the quarter of approximately \$2.3 million which was primarily due to forgone gains on sale associated with a cost-basis transfer of self originated loans to the REIT. The quarter ended December 31, 2004 was the second full quarter in which the Company operated as a public company. As a result only current period financial performance is provided.

"2004 was a tremendously successful and significant year for New York Mortgage Trust," Steven Schnall, Chairman and Co-Chief Executive Officer, commented. "We have achieved our immediate goals and objectives since the IPO -- those of growing our mortgage origination platform, profitably investing our IPO proceeds in high-quality mortgage backed securities and aggregating a critical mass of mortgage loans for our first securitization which was completed last month. The actions taken since our June 2004 IPO have significantly increased our residential mortgage loan origination business, thus accelerating the pace of our achieving our ultimate goal of owning mortgage securities backed predominately by our own lower-cost mortgage originations. On the acquisition front we completed two low-cost branch transactions allowing us to enter new target markets as well as increase our presence in others. These acquisitions have increased our current estimated run-rate of annual origination volume to approximately \$3.4 billion, more than double our 2003 levels. Furthermore, we were the low-cost bidder on these acquisitions, which is testimony to New York Mortgage Trust's attractiveness as an origination partner."

Mr. Schnall further commented, "Looking ahead, we remain focused on adhering to our portfolio strategy of strict interest rate and credit risk management with the utilization of effective hedging and reasonable leverage. We are also committed to continuing the growth of our mortgage origination subsidiary and on remaining a premier provider of residential mortgage services in terms of customer satisfaction and quality of service. Also, given our recent successes in growing our origination platform, we are now well positioned to substantially replace our initial \$1.2 billion portfolio of acquired mortgage-backed securities with self-originated loans by the end of this year. We feel that we have never been more able to take advantage of opportunities in the origination marketplace and that our prospects have never looked better. In summary, we believe that New York Mortgage Trust is extremely well positioned to execute its strategic plan for internal and external growth in 2005 and beyond."

Michael Wirth, Chief Financial Officer, added, "The accomplishment of our strategic goals in 2004 is critical to our future success. Since our mid-November acquisition of GRL we have fully integrated its sales force and continue to make infrastructure improvements to facilitate the additional loan production growth we anticipate for 2005 and beyond. As a result, in the fourth quarter of 2004 we have incurred atypical upfront costs. We expect these up-front costs, such as legal and consulting fees and increased personnel, technology and other expenses associated with the increased capacity, to continue through the first quarter of 2005."

Mr. Wirth continued, "We are cognizant of the need to carefully manage our growth with balanced financial performance and, despite these increased expenses, we are confident that our investments in new infrastructure, technology and personnel will pay off once fully implemented and efficiencies are realized in terms of reduced costs and a significant positive impact on our earnings. Our portfolio investment segment continues to be a solid performer from which we primarily base our dividend distribution policy."

As of December 31, 2004, the Company's total assets were approximately \$1.6 billion, including approximately \$1.2 billion of residential mortgage-backed securities, \$190.7 million of residential mortgage loans held for securitization, \$85.4 million of residential mortgage loans held for sale, \$79.9 million due from loan purchasers and \$16.2 million of advance fundings for pending loans to be closed. The Company, at December 31, 2004, had \$1.5 billion outstanding under its various financing facilities.

About New York Mortgage Trust

New York Mortgage Trust, Inc. (NYMT) is a real estate investment trust (REIT) focused on owning and managing a leveraged portfolio of residential mortgage securities and a mortgage origination business. The mortgage portfolio is comprised largely of prime adjustable-rate and hybrid mortgage loans and securities, much of which, over time will be originated by NYMT's wholly owned mortgage origination business, The New York Mortgage Company, LLC (NYMC), a taxable REIT subsidiary. The ability to build a portion of its loan portfolio from loans internally originated is a cornerstone of NYMT's strategy.
